

LA Wallet Digital Driver's License Procedure

*White SOS book
Pg. 34*

In 2018, the Louisiana Department of Public Safety introduced LA Wallet, an app that can be downloaded to a smart phone and/or tablet. LA Wallet displays a legally accepted digital driver's license. This is a generally recognized form of ID for voters per La. R.S. 18:562.

On March 18, 2020 Governor Edwards announced that the fee for LA Wallet has been suspended in response to the COVID-19 pandemic.

LA Wallet Digital Driver's License Procedure

STEP-BY-STEP PROCEDURES

1. You should accept the LA Wallet Digital Driver's License, but must do so **without handling the voters' device**. Simply ask the voter to open LA Wallet on their device and show it to you.
2. If you would like to see further validation that the license is actually in LA Wallet, you may ask the user to show the security seal. The user can press and hold the license on the screen to reveal the security seal.
3. If you have doubts about the acceptability of any ID presented by a voter, have them complete a voter identification affidavit (AV-34).
