

Geaux Vote App

- Using the **GEAUX VOTE** App will help you assist voters with finding their correct precinct
- **DO NOT** rely on your memory or assume you know what precinct someone votes at, just because you know where they live
- **DO NOT** use anything other than the GEAUX VOTE app, the precinct register or the ROV to determine where someone votes
- If your precinct is not busy and you see that another precinct is, it will be helpful to send a Commissioner to help assist and confirm the voters are in the right line

Geaux Vote App

Many voters fail to report address changes in a timely manner. In order to get accurate information on where a voter is registered to vote, **you must “Search by Voter”**

DO NOT search by address

Use Birthdate Instead

Search

Type the voter's first and last name

Make sure to confirm the correct spelling. Example: Cinthia, Cinthya or Cynthia

You can also search by the voter's date of birth. This would narrow down the search results
